PROFESSIONAL SUMMARY

Software Engineer with professional experience developing and maintaining production ERP systems and cloud-based collaboration platforms. Experienced in building scalable web applications using React, Next.js, Node.js, NestJS, Python, and Frappe Framework. Skilled in REST API development, enterprise software, cloud deployment, AI integration, payment gateways, real-time communication, and software architecture.

PROFESSIONAL EXPERIENCE

Junior Full-Stack Developer | V.Connct | 2025 - Present

- Develop and maintain production ERP applications using Frappe Framework and ERPNext for enterprise clients.
- Design RESTful APIs and multi-service features for meetings, live streaming, chat, polls, document collaboration, and workflow automation.
- Integrated 5 enterprise services - OnlyOffice, Stripe, Paymob, AWS S3, and Frappe Press - with secure API communication.
- Build AI-powered workflow features, optimize application performance, resolve production issues, and reduce site provisioning time to under one minute.
- Collaborate in Agile/Scrum teams using Git, code review, testing, CI/CD workflows, and production support practices.

Full-Stack Developer Intern | V.Connct | 2024 - 2025

- Developed frontend and backend features using React, Node.js, Python, Frappe, and PostgreSQL.
- Built API integrations, customized ERP modules, and participated in testing, debugging, deployment, and production support.

PROJECTS

Smart Coach - AI Fitness Platform (Graduation Project) | 2025 - 2026 *React, NestJS, FastAPI, MongoDB, TypeScript, Socket.IO, Docker, AWS S3, Google Gemini*

- Developed a modular full-stack fitness platform with AI coaching and trainer management.
- Built secure REST APIs with authentication, validation, and role-based access control.
- Integrated Google Gemini for personalized workout and meal recommendations; implemented real-time communication and payment processing.
- Delivered cloud storage and Dockerized deployment with a FastAPI service exposing 7 query, workout, and meal-plan endpoints.

Chatify | 2025 *React, Node.js, Express, MongoDB, Socket.IO*

- Developed a real-time messaging application with JWT authentication, user management, and responsive interfaces.

Fresh Cart | 2024 - 2025 *React, Tailwind CSS, REST APIs*

- Built an e-commerce application with authentication, protected routes, shopping cart, and product API integration

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Vite, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, NestJS, FastAPI, Django, REST API Development

Databases: MongoDB, PostgreSQL, MariaDB, Redis, Supabase

Platforms: Frappe Framework, ERPNext, LiveKit, OnlyOffice

Cloud & DevOps: Docker, Git, GitHub, Linux, AWS S3, Frappe Press, Vercel, CI/CD, DevOps, Cloud Computing

Engineering: JWT, RBAC, WebSockets, AI Integration, Payment Gateways, Unit Testing, Agile/Scrum, Agile methodologies, Performance Optimization, Microservices, Software Architecture

EDUCATION

Bachelor of Computer Science | Misr University for Science and Technology (MUST) | Graduated: July 2026

Relevant Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Web Development, Cloud Computing

CERTIFICATIONS & ADDITIONAL INFORMATION

Route Academy - Full Stack Web Development Diploma

Programming Competitions: ICPC/CPC participant (2 times)

Languages: Arabic (Native), English (Intermediate)
